# CLINOMIC

CENTER FOR CLINICAL RESEARCH PVT. LTD.

Is the premier institute dedicated to promoting ethical research and high-quality Clinical Research education in India. Clinomic addresses the need for qualified and trained clinical research professionals by offering various programs in clinical research at its center of excellence campus in India.

Clinomic serves you with a platform that trains all aspirants to be well-prepared to meet the needs of this ever-evolving industry by disseminating knowledge and skills in core and frontier areas of clinical research. Clinomic provides an independent global framework for international education, training, and exchange of information for clinical research professionals and to foster professional excellence in the design and execution of clinical research, thereby contributing to enhancing the clinical research culture in India.

Clinomic is India's premier Clinical Research Institute with one decade of expertise in the field of clinical research education. Clinomic aims to nurture and create an environment of learning and implement international standards in the interests of clinical research and healthcare studies through its centers located in Pan India.

This will ensure that India meets global expectations and emerges as a top clinical research and healthcare destination.

## VISION

Our vision is to be a global leader and center of excellence in Clinical Research, serving the industry for the betterment of social well-being.

## MISSION

We are committed to **Quality, value, & integrity**, and empower our students with rigorous knowledge and hands-on practical training in Clinical Research. We provide a platform and opportunity for young, capable minds to enter the field of Clinical Research.

## OUR COURSES

### ADCR

(Advance Diploma In Clinical Research)

#### Comprehensive Curriculum:

Clinical trial design, ICH-GCP guidelines, pharmacovigilance, medical writing.

**Hands-On Learning:** Real-world case studies, simulations, industry projects.

**Career-Ready Skills:** CRC, CTA, Data Management Associate roles.

**Flexible Duration:** 6–12 months, study at your pace. Industry-Recognized Certification.

#### ELIGIBILITY:

- B.pharm, Mpharm, M.B.B.S, M.D, M.S, D.N.B, B.V.Sc, M.V.Sc
- B.D.S, M.D.S, B.H.M.S, B.A.M.S, B.U.M.S, B.Sc Nursing
- Working Professionals with relevant qualifications
- Final year students are eligible for enrollment in the program

1 Introduction  
To Clinical  
Research  
& Drug  
Discovery

2 Fundamental  
Concepts in  
Clinical  
Research

ADCR

Examination

Application of  
Clinical Trial

## Faculty

- 1) Doctors
- 2) Industry Professionals
- 3) Departmental Head
- 4) Clinical data management professional

## PGDCR

(Post Graduation Diploma In Clinical Research)

**Advanced Training:** Clinical trial management, regulatory affairs, pharmacovigilance, QA, data management.

**Global Perspective:** Learn FDA, EMA, CDSCO frameworks.

**Real-World Experience:** Internships, CRO & pharma collaborations.

**Career Powerhouse:** CRA, Regulatory Affairs Specialist, PV Officer, Project Manager.

**Flexible Duration:** 12–18 months, online + classroom.  
**Placement Support:** Links to top CROs & pharma companies.

## ELIGIBILITY:

- B.Sc. ( Botany, Microbiology,Zoology, Chemistry, Biochemistry,Biotechnology, and Bioinformatics)
- M.Sc, Phd ( Botany, Microbiology,Zoology, Chemistry, Biochemistry,Biotechnology, and Bioinformatics)
- Final year students are eligible for enrollment in the program

# TRAINING METHODS AND DELIVERY

Clinomic employs a hybrid, technology-enhanced methodology to deliver comprehensive training in clinical research, combining theoretical and practical components for effective learning:

## THEORETICAL INSTRUCTION

- o Delivered via an **advanced e-learning platform** with flexible, self-paced access.
- o Features **recorded lectures, interactive modules, and assessments.**
- o Includes the **Visual Training Module (VTM)**, using visual aids, simulations, and multimedia (e.g., videos of trial procedures, interactive data flow diagrams) to simplify complex topics.

## PRACTICAL & HANDS -ON TRAINING

- o Core component includes internships with top organizations like Hospital, CROs, and pharmaceutical companies.
- o Interns gain experience in real trial environments, including data collection, site management, and pharmacovigilance reporting.
- o Internships last several months with mentorship from industry professionals.
- o Methods like convoluted classroom sessions (intensive, discussion-based) and practice with actual datasets ensure skill mastery.

## ASSESSMENT & PROGRESSION

- o Continuous evaluation through **quizzes, case study presentations, and internship assessments.**
- o **Stateful process** builds on prior modules (e.g., trial design knowledge is a prerequisite for internship tasks).
- o Offers **corporate training** for customized group sessions.
- o Uses **ISO-certified processes** for quality assurance.
- o Supported by **over 90 faculty members**, including doctors, clinical research coordinators, and industry experts with real-world experience in areas like multi-center trials and regulatory navigation.

## PRACTICAL & HANDS -ON TRAINING

- Internships and practical modules provide real-world exposure, preparing graduates for roles like Clinical Research Coordinator (CRC), Data Analyst, or Pharmacovigilance Associate.
- Graduates are immediately employable due to practical training.

## 100% PLACEMENT ASSISTANCE

- Comprehensive support includes interview skill development, resume building, and employer connections.
- Placements in high-profile organizations.
- Alumni success stories highlight roles in hospitals and CROs with regular increments and promotions.

## INDUSTRY-RELEVANT & GLOBALLY RECOGNIZED SKILLS

- Curriculum aligns with international standards, enabling global job opportunities.
- ISO certification and university affiliations enhance resume credibility.

## EXPERT FACULTY & MENTORSHIP

- Training by seasoned professionals provides insights into ethical practices and trends like AI in clinical data analysis and telemedicine trials.

## PROVEN TRACK RECORD & NETWORKING

- Thousands of successful alumni and strong ties to Pan India pharmaceutical ecosystem create a robust career network.
- Additional perks include free career counseling, exclusive study materials, and industry-recognized certificates.

## FLEXIBLE & ACCESSIBLE LEARNING

- E-learning platform and Sunday batches accommodate diverse learners, including working professionals.
- Financial aids like bank loans.

# CAREERS IN CLINICAL RESEARCH

## CLINICAL OPERATIONS

- Clinical Research Associate
- Clinical Research Coordinator Investigator
- Sub Investigator
- Study Coordinator
- Co-Investigator
- Bioavailability & Bioequivalence Expert

## CLINICAL DATA MANAGEMENT

- Data Validation Executive
- QA Executive
- Data Manager
- Database Designer
- Database Statistician
- QC Manager

## PHARMACOVIGILANCE & DRUGS SAFETY PROFESSIONAL

- Quality Assurance Pharmacovigilance
- Drug Safety Associates
- Pharmacovigilance Service Analyst
- Safety Writer

## MEDICAL / REGULATORY AFFAIRS

- Medical Writer
- Regulatory Writing
- Publishing Manager
- Associate Writer
- Medical Writing Professional

there are numerous  
careers in  
clinical research

**Clinical Research Coordinator (CRC):**

Manages daily operations of clinical trials, including patient recruitment, data collection, and ensuring compliance with study protocols.

**Clinical Research Associate (CRA):**

Monitors clinical trial sites to ensure adherence to protocols, Good Clinical Practice (GCP), and regulatory requirements.

**Clinical Data Manager:**

Oversees the collection, validation, and analysis of clinical trial data to ensure accuracy and integrity.

**Clinical Trial Manager/Project Manager:**

Leads and coordinates entire clinical trials or portfolios, managing timelines, budgets, and cross-functional teams.

**Regulatory Affairs Specialist:**

Ensures clinical trials comply with regulatory standards by preparing and submitting documentation to agencies like the FDA or EMA.

**Biostatistician:**

Designs study protocols and analyzes clinical trial data using statistical methods to draw meaningful conclusions.

**Medical Writer:**

Creates clear and accurate documents, such as study protocols, reports, and publications, for clinical research studies.

**Clinical Scientist/Principal Investigator:**

Designs and leads clinical studies, overseeing their scientific and ethical execution, often in academic or industry settings.

## STUDENT TESTIMONIALS

## JOIN US IN CELEBRATING SUCCESS

### RIDDHI SHIRSAT

GOT PLACEMENT IN

I recently completed the Clinical Research course with Clinomic and had an exceptional learning experience. The course content was comprehensive, well-structured, and perfectly balanced between theoretical foundations and practical applications. The instructors were highly interactive and engaging, thoroughly involving us in both offline and online classes.

### JOANNE FERNANDES

GOT PLACEMENT IN

The lectures were good and helped us understand clinical research, making for a great experience. I had a very good experience with Clinomic, not only concerning placements but also regarding teaching, cooperation, and interview training, which were really useful. They conducted several mock interviews and provided feedback on areas where I could improve to ace interviews. Plus, the lecturers taught well on clinical research.

# TESTIMONIALS SPEAK LOUDER!

**SNEHIL SHRIVASTAVA**

GOT PLACEMENT IN

Clinomic Centre for Clinical Research is one of India's top platforms for clinical study and research job opportunities, discovering brilliant minds and developing confidence in students. The Director, the coordinators, and staff are very supportive throughout.

**DIKSHA DIKSHIT**

GOT PLACEMENT IN

The faculty is very encouraging, providing good guidance throughout the course. We gained first-hand experience in the clinical research industry, as the teaching faculty kept us up-to-date with the latest industry knowledge. The mock interviews and viva sessions were really helpful.

**GEETA LAGADE**

GOT PLACEMENT IN

I recently completed my Advanced Diploma in Clinical Research at Clinomic, and honestly, it exceeded my expectations. The curriculum was perfectly designed; samples, simulations, and real-world case studies made learning engaging and relevant. What impressed me the most was the placement support – from resume workshops to mock interviews and direct job notifications, I felt supported at every step.

**ISHA PRAJAPATI**

GOT PLACEMENT IN

Clinomic is a great institute for learning about Clinical Research. Everything is taught from the basic level, and lectures are very informative. The teachers are helpful and knowledgeable. After completing the course, interviews are lined up, which we need to crack. Mock interviews are also conducted, so we're well-prepared for the interviews. Overall, the staff is very helpful.

TESTIMONIALS

# WHAT INDUSTRY TALK ABOUT US

We would like to give a BIG thanks to the Clinomic team for the support received in identifying good candidates for vacancies in RAV Research Pvt Ltd, all over India. Special thanks to Ms.Chaitali for immediate support, everytime. I found all candidates well trained and knowledgeable. Looking forward to a long collaboration with Clinomic.

All the best !!!

Thank You. Team RAV

I am pleased to provide this testimonial for Clinomic Center for Clinical Research, which has consistently impressed me with its outstanding training programs and dedication to fostering talent in the field of clinical research. As the owner of Clinifinite Solutions, we have worked closely with Clinomic for recruitment purposes, and I can confidently say that the caliber of students graduating from their programs is exceptional. Many of the professionals we've hired from Clinomic have thrived in their positions, contributing positively to our projects and organizational goals.

Thank You.  
Dr. Vikrant Tripathi

Edenwell Therapeutics Pvt. Ltd has been associated with Clinomic Centre for Clinical Research, Thane for past two years through extending its platform for the Clinomic candidates for industrial training at Edenwell. Some of the good candidates have been absorbed in our organization after completion of their industrial training with us based on their performance. We would like to congratulate Clinomic for supporting the candidates in building clinical research knowledge foundation and are happy to continue our association with them for industrial exposure of their candidates.

We wish them success and good luck!  
Thank You.  
Dr. Parvez Kosgi

**We are committed to Quality, Value and Integrity and empower our students with rigorous knowledge and hands-on practical training of Clinical Research and to provide the platform and opportunity to the young capable minds to enter the field of Clinical Research.**

The Clinomic Institute for Clinical Research stands out as a center of excellence in clinical research education and training. Their curriculum is both comprehensive and practical, bridging the gap between academic knowledge and real-world application. The faculty are not only experts in their fields but also passionate mentors who are deeply committed to student success. My experience with the institute has greatly enhanced my understanding of clinical research methodologies, regulatory practices, and ethical considerations. I highly recommend Clinomic to anyone aspiring to build a strong foundation in clinical research.

**Ankush Kumar**

*Operations Specialist II / IQVIA*

In my decade as Head of Department, I, Dr. Vidula Nachiket Pendharkar, have had the privilege of witnessing something truly special. The work we do at Clinomic Clinical Research is about more than just a course curriculum; it's about shaping the future of medicine, one student at a time. In a world where every medical breakthrough depends on the rigor of clinical research, our purpose has never felt more vital. We are the architects behind the science that brings new therapies to light and improves lives.

**Dr. Vidula Pendharkar**

*Clinical research professional / Infosys*

I completed the advanced diploma in clinical research at Clinomic. Great institute for learning about clinical research. Everything is taught from basic level & lectures are also very informative. The course covered essential topics in clinical research & the faculty was knowledgeable & supportive. After completing the course interviews are lined which we have to crack. Mock interviews are also there so we are prepared for interviews. Overall staff is also very good.
